! IMPORTANT: CONFIRM YOUR SIZE BEFORE ORDERING

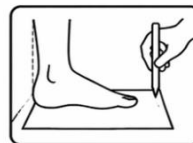

HOW TO MEASURE YOUR FEET:

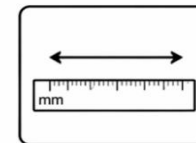

- 1** Place a piece of paper on a hard floor with one edge against a wall.

- 2** Stand on the paper with your heel lightly touching the wall.

- 3** Mark the tip of your longest toe, keeping the pen or marker straight up and down.

- 4** Measure from the edge of the paper to the mark.

Measuring in millimeters is preferred for the most accurate fit.

Compare your measurement to the size guide above.

💡 IMPORTANT FIT TIP

Be sure to measure while standing with your knees slightly bent and wearing the same socks, stockings, or booties you plan to skate in. If you skate barefoot, measure with no socks.
